

Game Rules (5/16/2022)

Note: The Shifting Seas video slot is referred to as Shifting Seas, The Game or Game.

1. Shifting Seas is a video slot with 6 reels and up to 117649 pay ways. The game features Shifting Reels, Avalanche feature, Special Wild features, Wilds and a Bonus game with free spins and a Wild Reel multiplier. The theoretical return to player is 90.16%.
2. A game round is started with the action button and plays the game with the selected bet level.
3. Auto play plays the game automatically for the number of game rounds selected in the auto play page. This feature may not be available.
4. All game payout and win combinations are paid out according to the pay table.
5. All wins are presented and paid out in the selected currency.
6. Only the longest win per pay way is paid out, if in sequence from leftmost to right and in combinations according to the pay table.
7. Shift Win: Every win and every Boost Shift causes the rightmost reel to disappear, and a new reel appears on the left-hand side.
8. Reel height: In the Base game the 6 reels have set heights of 4, 4, 3, 3, 2 and 2 symbols, which appear in this specific order from left to right. For every other Shift Win, the reel height increases with one symbol for each reel. The reel height increases for every other Shift Win, up to 6x7.
9. Avalanche feature: Symbols included in pay way wins are replaced with new and/or existing symbols dropping from above. This continues as long as there is a new pay way win.
10. When a Special Wild feature symbol is either part of a pay way or pushed out of the game area, the corresponding Special Wild feature is activated. When multiple Special Wild features are triggered at the same time these are activated in the following order: Boost Shift, Symbol Rush and Wild Surge.

Boost Shift feature: The Boost Shift feature results in an extra reel shift that enables a new reel to be added to the leftmost position of the game area. This new reel is a duplicate of the reel that was previously located in the leftmost position. If the new reel height is larger than the previous reel height, a new symbol will be added on top of the reel.

Symbol Rush feature: The Symbol Rush feature randomly transforms 4-8 symbols on any reel into new identical symbols.

Wild Surge feature: The Wild Surge feature randomly transforms 1-3 symbols on any reel into Wild symbols.

The Special Wild feature symbol does not affect Scatter, Wild or other Special Wild feature symbols.

11. The Wild symbols substitute for all other symbols except the Scatter symbol.
12. If a Shift Win pushes out the Bonus symbol it triggers the Bonus game consisting of 8 free spins. The Bonus game will start when the Shift Win feature has ended. In the Bonus game, if a Shift Win pushes out the Bonus symbol it awards 4 extra free spins.
13. Wild Reel feature: In the Bonus game, the Wild Reel feature may appear at any reel. Initially it appears at the first reel and after a Shift Win, the Wild Reel feature will move one position to the right. The Wild Reel feature only counts as 1 pay way even if covering up to 7 positions. The Wild Reel feature follows the movement of the reels and carries a multiplier starting at 1.

Any pay way win including the Wild Reel will be multiplied with the multiplier of the Wild Reel.

If a Shift Win pushes out the Wild Reel feature it reappears on the leftmost reel. This will upgrade the multiplier of the Wild Reel by 1 and award 1 extra free spin.

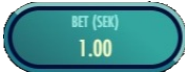

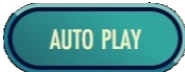

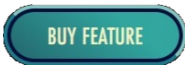

14. The Bonus game is played with the same bet as the spin that triggered the Bonus game.

15. No bets can be altered during a game round.

16. In the event of game malfunction all affected bets and pays are rendered void.

17. All wins during a game round are added and presented at the end of the game round.

18. The maximum total bet multiplier for one game round is 15000x. If this limit is reached the game round will be terminated and no additional wins will be paid out.

Button	Function
	Click to start a game round. On desktop you may also press the space bar on your keyboard. This is the action button.
	Skip presentation.
	Quick stops the symbol area.
