- All game payout and win combinations are paid out according to the pay table.
- All wins are presented and paid out in the selected currency.
- Only the highest win per pay way is paid out, if in sequence from leftmost to right with no gaps and in combinations according to the pay table.
- The Wild symbols substitute for all other symbols except the Scatter symbol.
- The Stacked Respin Wild symbol, occupying 2, 3, or 4 reel positions, locks into place and triggers a respin. If one or more (maximum 4 in game area) Stacked Respin Wild symbols land during a respin, 1 extra respin is awarded. Wilds or Stacked Respin Wilds can never appear on the leftmost reel. Wins are calculated at the end of the respins.
  - Any Bonus symbols that land during the respins are collected and added to the Bonus meter under the reels. The Cash Bonus game will trigger if the meter is filled after the respins are completed.
- The Cash Bonus game is triggered when the Bonus meter is filled with 3 Bonus symbols. When the Cash Bonus game starts, ordinary reels are replaced with special reels containing the following symbols with multipliers, Cash Coin (x1, x2, x3, x5, x10), Persistent Payer (x1, x2, x3) and Multiplier Cash (x1, x2, x3). The game area features 6 reels and a Ghost Reel (multiplier reel) on the far right (initial value x2).
  - The Cash Bonus game begins with 3 Free Spins. After a spin, if new symbols land on an empty position, Free Spins are reset to 3, and a shift is triggered, causing all current symbols to move one position to the right.
  - Ghost Reel: All symbols in the Ghost Reel are multiplied by the reel multiplier value. Each cash symbol is returned to a random position in the game area. A cash coin symbol can be placed on another cash coin symbol, and their values are added together.
  - A Persistent Payer symbol that reaches the Ghost Reel increases all cash symbols by its current value. Persistent Payer symbols will activate in chronological order (top to bottom), adding their value to all symbols in the game area and the Ghost Reel (including other Persistent Payer symbols).
  - A Multiplier Cash symbol landing on the game area will (prior to shifting) increase the Ghost Reel value by its own multiplier value and then transform into a Cash Coin of equal value.
  - At the end of the Cash Bonus game, the values of all cash symbols are added together and added to the payout. Pay way wins do not apply in the Cash Bonus game.
- The Bonus Game is played with the same bet as the spin that triggered the Bonus Game.
- No bets can be altered during a game round.
- In the event of game malfunction all affected bets and pays are rendered void.
- All wins during a game round are added and presented at the end of the game round.
- The maximum total bet multiplier for one game round is 25000. If this limit is reached the game round will be terminated and no additional wins will be paid out.

- A feature buy option may be purchased at a cost that is a multiple of the current bet size. A purchase starts a spin with an outcome that triggers the Bonus Game. Theoretical RTP is 90.50%. All outcomes from a feature purchase pays according to the pay table and in relation to the bet size. The feature buy functionality may not be available in all markets.
